

The Tariff for your M Power Account and M Power Saver

M Power Account

This tariff has important info about the interest and fees that could apply to your accounts, you may want to talk it through with an adult.

Interest we pay you

	Interest rates		
	Gross* (% per year)	AER† (%)	
Balances up to and including £1,000	1.00	1.00	<p>We work out how much interest to pay you at the end of every day. This is based on the money in your account.</p> <p>If your balance is £1,000 or less, we'll pay interest on the whole balance.</p> <p>If it's higher, we'll pay interest on the first £1,000. We'll add any interest on the last working day of the month.</p>
Balances over £1,000	0.00	0.00	

Overdraft interest and fees

There is no Arranged Overdraft on the M Power Account. When you make a payment, we check there's enough money in your account. If there isn't, we will always try to stop the payment – but sometimes we can't. Don't worry, there's no charge if this happens and your balance goes below zero (and into a temporary Unarranged Overdraft). But you will need to pay the money back. We'll be in touch with you if this happens.

Things to remember

If you need a copy of this Tariff, your Terms, or want info about our accounts, get in touch by:

You can always find your current interest rates:

- Heading to our website at virginmoney.com
- Calling us on **0800 121 7365**

We've only included the most common charges for your accounts in this Tariff. We'll tell you about any others before we charge them.

We can change your interest rates. Your Terms give you more details about when we can do this and how we'll let you know.

These are the types of interest rates we use:

*Gross rate. This is the rate of interest we pay you. We don't take any tax away from the interest we pay you (which would be called the 'net rate').

If the interest you earn is more than the Personal Savings Allowance, you'll have to pay tax directly to HM Revenue and Customs. It'll depend on your circumstances and it might change in the future. For more info, please visit www.gov.uk

†AER. The AER (or Annual Equivalent Rate) is the equivalent rate of interest that you'd earn if we paid interest once a year.
