#### Is there anything else I need to know?

This is the Key product information sheet as referred to in the Savings terms and conditions.

We have to tell HM Revenue & Customs how much interest each saver receives. That is why it's important to include the amount of interest paid on your annual income tax return, if you complete one. If, however, you're unsure of your tax liability please visit the HMRC website or contact your accountant for advice.

There are special rules in place with HMRC if the savings have been given by a parent. If gifts from a parent produce more than £100 gross income in a tax year, the whole of the income from the gift is normally taxed as the parent's income. The parent will have to pay tax on all the interest if it's above their own Personal Savings Allowance.

The £100 rule applies separately to each parent. The £100 rule applies as long as income is over £100 in any one tax year for any one child from one parent.

For example, if a parent gives a child £2,000, which earns £98 interest, the interest belongs to the child for tax purposes. But if the £98 is added to the account, leading to £101 interest being earned in year 2, the interest has now exceeded the £100 annual limit. This means it now belongs to the parent for tax purposes.

On 5 April, following the child's 16th birthday, the account will be automatically transferred into an appropriate adult savings account. We'll contact you prior to this date to advise that this will be happening.
