¹ Net is the annual rate of interest payable after deduction of basic rate income tax (currently 20%). Interest will be paid net or, if we receive the necessary declaration from you, gross. Where the tax deducted exceeds your tax liability (if any) you may make a repayment claim to HM Revenue & Customs. If your income falls within the basic rate band the tax deducted will match your tax liability on the interest and you will have nothing further to pay. If you are liable to tax at the higher rate(s) you will have an additional tax liability. For more information please visit www.hmrc.gov.uk/individuals/babsi.htm.

² AER stands for Annual Equivalent Rate and shows what the interest rate would be if interest was paid and added to the capital balance each year.

You will be able to view your Virgin Fixed Rate E-Bond statement by logging into your account. These online statements will show the balance, details of any transactions and interest added to your account.

Remember

This is the Key product information sheet as referred to in the Savings Terms and Conditions.

Our Virgin Fixed Rate E-Bond is classed as a non-payment account, which means making payments in and out of your account may be restricted. For example, you may not be able to make any withdrawals.

We have to tell HM Revenue & Customs about how much interest each saver receives. That's why it's important to include the amount of interest paid on your annual income tax return, if you complete one. If you are not a taxpayer, you may be eligible to have your interest paid gross. Before we can pay you gross interest, you must fill in HM Revenue & Customs form R85 for each account holder and for each account – even if you have filled one in for another account in the past. You can get HM Revenue & Customs form R85 and notes on who qualifies for gross interest at any Virgin Money Store or from your local tax office. Please note, the tax treatment and rate of interest payable depend on the individual circumstances of each customer and may change in the future.

Important information about compensation arrangements

We are covered by the Financial Services Compensation Scheme (FSCS). The FSCS can pay compensation to depositors if a bank is unable to meet its financial obligations. Most depositors – including most individuals and small businesses – are covered by the scheme.

In respect of deposits, an eligible depositor is entitled to claim up to £85,000. For joint accounts each account holder is treated as having a claim in respect of their share so, for a joint account held by two eligible depositors, the maximum amount that could be claimed would be £85,000 each (making a total of £170,000). The £85,000 limit relates to the **combined** amount in all the eligible depositor's accounts with the bank, including their share of any joint account, and not to each separate account.

For further information about the compensation provided by the FSCS (including the amounts covered and eligibility to claim) please call us on 0845 600 1568*, ask at your local Virgin Money Store, refer to the FSCS website www.FSCS.org.uk or call the FSCS on 0800 678 1100 or 0207 741 4100. Please note *only* compensation related queries should be directed to the FSCS.

Once you have logged onto your homepage, select the 'let's talk' option, then 'New' this will allow you to send us a secure message. We may require evidence of a change of name (e.g. original or certified copy of a marriage certificate) before we can amend our records.

Locked out of your account

If your password has been entered incorrectly three times you will automatically be locked out of the system. In this event you will be prompted to answer three security questions and if you correctly answer all of them, a one-time password will automatically be sent out to you. If you answer one of the three security questions incorrectly, you will have to order a new one-time password by calling our helpline. Please refer to the Useful contacts section at the back of this Key product information sheet.

The one-time password will be sent to your correspondence address and may take between two and five business days to arrive, depending on your postal service. Once you have received this you will be able to log into your account and amend the security question that locked you out of your account. Please do not make any further attempts to enter your original password, even if you think you have remembered it, as this password will be deactivated.

If you are unable to remember your Customer ID, please refer to the Useful contacts section.

Security information

Our online systems have been developed with security as a top priority. We have implemented several layers of security and provide a high level encryption to ensure that all our customers enjoy a safe and secure service.

However, to ensure that your details are safe, we also need your help. We recommend that you note the following tips on each section in order to help safeguard your account and personal information.

Online account

- Please be extremely vigilant when accessing your online accounts in public places such as an Internet Cafe or a library. Do not leave your PC unattended and ensure that no one is watching you type.
- Always take reasonable steps to keep your account details and other security information secure (such as shredding any unwanted printed material) and never give your details to anyone else or display your personal information.
- Keep your PC secure by using up to date anti-virus and spyware software, as well as a personal firewall.
- Treat emails you receive with caution and be wary of emails or calls asking you to reveal any security details.

'Phishing'

Some UK banks have become targets of fraudulent email scams, where customers have been requested to provide or confirm their online security details by email.

This is referred to as 'phishing'. Unfortunately, there is little that Virgin Money, or any other bank can do to stop these emails being sent.

Any email we send you will only contain links to features and information or promotions about Virgin Money's products and services. These links are for your convenience and you should always use our full website address directly in order to access your accounts.

If you do receive an email claiming to be from Virgin Money, asking you to confirm your security details online, it is very important that you do not respond to it. Please forward it, preferably as an attachment to the Phishing email address on the Useful contacts section of this Key product information sheet. We won't be able to reply individually, but we do investigate every email to ensure that any fraudulent sites are closed down as quickly as possible.

Neither the police nor Virgin Money will ever send emails asking you to provide, update or confirm personal or security information, like your account number, password or security details.

Passwords

It is imperative that you keep your password, Customer ID and answers to security questions protected and do not disclose them to anyone else. Your passwords play an integral part in your account security.

To ensure added security, we recommend that you:

- Commit the information to memory;
- Do not record your security details anywhere that they can be discovered or viewed by another person;
- Change your password frequently.

Technical information

You will need a computer with a currently supported operating system and a browser, such as Internet Explorer. This must support 128bit encryption with a display resolution of 800x600 or higher.

If you start experiencing technical difficulties please visit the technical help section of the website first.

If you have exhausted these suggestions, please refer to the Useful contacts section where you will find the email address to report your problem.

Be sure to include:

- Details of the problem including any error messages that are displayed;
- Your PC specification (Processor Speed and Memory);
- Your Operating System (Windows XP/Vista/MacOS10.5);
